

## Smart HSE Solutions

The legal consequences can be very high from fines running into the millions to the possibility of jail time in extreme circumstances. The moral consequences can also have effects from bad publicity, loss of revenue to the possible closure of your business.

Running your business is a fulltime job, without having the hassle of looking after HSE issues as well. AU Worksafe can tailor HSE packages to suit the size, type and budget of your business and can also provide full / part time HSE personnel or consultants for coverage.

## Why choose AUWorksafe

We have more than 15 years' experience in HSE industries from construction, mining, heavy industrial, marine, defence, manufacturing, hospitality and corporate businesses.

Full systems that comply with local, state and national government regulations.  
Prepare your business to comply with Certification of Australian Standards  
We can train and induct your workforce into the systems as well as verify competencies  
Conduct regular audits to ensure your company stays compliant with legislation / system requirements  
Provide on-going support
